KEY ACHIEVEMENTS

Decades of experience

From ActionScript to JavaScript to Typescript, I've been writing code since 1997 and on. Over 25 years development experience

Chromecast Development

Team leader in creating Chromecast MVPs at Comcast, worked with Google's Chromecast development team, built several casting debugging apps for development and QA tasks

Comcast Video Playback Leadership

SME in video playback, I led multiple teams at Comcast; Creating video, ad, and telemetry solutions supporting millions of views worldwide

HD Video Implementation

Implemented HD video services, resulting in 40% increase in user engagement.
